We Want Independent Film!

We, the undersigned, wish to make known our interest in and dedication to smaller independent and foreign films that are usually consigned to a mere handful of "art house" theaters. Should such films be offered at more conventional movie theaters that are located closer to where we live and work, such as Ultrastar's Mission Marketplace 13 in Oceanside, California, we would buy tickets to see those films and encourage our friends, family, and neighbors to do so as well.
